

May 12, 1975

will find out whether it is people that should be qualified. They have gone to schools that are accredited and if they have a good background in medicine. This portion Dr. Duc will be able to tell.

SENATOR KOCH: Then the other question, it says the Nebraska Legislature shall sponsor these families.

SENATOR SIMPSON: What is the question to that?

SENATOR KOCH: The question is, to what extent will be sponsor them? And can we legally sponsor them?

SENATOR SIMPSON: Oh yes, we sure can.

SENATOR KOCH: We can.

SENATOR SIMPSON: Yes, we can do it through an agency. We are not going to house them ourselves but we surely can through an agency and we can expend money for them and whatever we would wish. Whatever the wishes of this body is.

SENATOR KOCH: Those are my questions.

PRESIDENT: Senator Warner.

SENATOR WARNER: Mr. President, I assume the people have already left but I can recall times when we have shot from the hip. I recall the time that we, several of you, at least, that were here a year ago, all voted in a big hurry to send the whole Legislature to Washington which subsequently was rescinded. Now I am concerned and interested in providing doctors as anyone else but it looks to me like there is a whole host of questions that are not even being looked to or no one seems to be concerned with which I think we ought to have the answers to before we end up with the egg on our face. It says, the Nebraska Legislature hereby agrees to sponsor. As I recall, at least from what I read in the paper, that means that we provide travel cost back to here. I believe it agrees to provide living costs for a period of time. Now this all well may be valid but I...worthwhile, but I am not sure that kind of expenditure would be valid. I seriously doubt, in fact, that it is valid and we could certainly look pretty stupid to bring people back here and then suddenly have DAS put a hold on any vouchers and I would hope that before the body rushes into approving the Resolution that someone would make an accurate determination whether or not this is possible to do. I would assume, as Senator Koch has pointed out, that some communities through collections of a volunteer nature certainly could do this. But I think it is quite another thing for state tax funds to be interpreted as being used for this. As I recall, we have had to have special legislation even to allow institutions to bring people in for interview purposes and I don't recall that that legislation would cover a situation similar to this one and I guess my suggestion is that the amendment not be adopted today, at least, until some of these things are answered in the affirmative. Thank you.

PRESIDENT: Senator Clark.
